

According to Dr. Linus Pauling (two-time Nobel Prize winner), every sickness, disease, and ailment can be traced back to a mineral deficiency. Vitamins and minerals are essential nutrients the body doesn't make but are needed in small amounts to keep you healthy. We get these vitamins and minerals from the foods we eat and drink.

However, no matter how healthy you may be eating, chances are, you are nutrient deficient. Since the early 1960's levels of vitamins and minerals in our vegetables, fruits, and meats have dropped significantly. Our foods no longer contain the same levels of nutrition as they once did . . . which is why supplementation is more crucial than ever.

BENEFITS

It's time to restore your body with Restore, a powerful mixture of 92 trace minerals. Just what you need to improve your overall health and wellness.

- Helps regulate the body's acid-base pH
- Promotes a healthy immune system
- Supports a healthy metabolism
- Supports cardiovascular health
- Supports bone and joint health
- Aids in detoxification
- Replenishes electrolytes
- For daily use: Add 10 drops of Restore to 8 ounces of water, juice or any cold drink.

For exercise: Add 5 drops of Restore – before and after – with 8 ounces or more of water or juice.

- Using Restore with Daily Detox is a safe and effective way of restoring your body, after "getting rid of the bad!"
