TRIMSCIENCE™ ENERGY

Weight management meets yummy convenience with TrimScience™ packets and canisters, in coffee, chocolate, lemonade, or matcha tea, and 13 potent weight management ingredients.

What it does

The components of TrimScience™ aid in weight management by burning fat (thermogenesis), blocking carbohydrate absorption (alphaamylase inhibition), preventing the creation of new fat (lipid biosynthesis), appetite suppression (satiety), and systemic detoxification.

Why it's special

Many toxins (including heavy metals and volatile organic compounds (VOCs)) become sequestered (trapped) in fatty tissues. It has recently been discovered that fat cells that are high in toxic compounds tend to be harder to break down. In other words, the more toxic you are – the harder it will be to burn fat and lose weight.

Make weight management easier by preventing the jitteriness usually experienced by coffee drinkers and aiding in mood enhancement to give users a feeling of well-being. All of the ingredients in TrimScience™ together make for a unique weight management and detoxification experience.

Use for maintenance

Use any time you want delicious healthy beverage for energy and weight loss. Mix with our TrimScience shake for a full experience.

PET HEALTH

There are currently over 78 million dogs and 85 million cats in the US. These companion animals are as susceptible as humans to ailments and issues that require detoxification and pain-relieving solutions.

What we need to do

Fumes, environmental toxins – indoors and out – foods, chemical exposures and treatments hurt our pets. Cell Defender for Pets takes out heavy metals and volatile organic compounds easily by capturing and eliminating toxins.

Plus Relief for Pets offers a safe and easy to use anti-inflammatory gel when harsh treatments just won't do.

Why they're special

Modern medicine and veterinary practices are limited in what they offer for pain, usually treating with the same narcotics and pain relievers recommended to humans. Cell Defender and Plus Relief for Pets cause no harm and get to the root cause of most issues . . . the ones caused by toxicity, inflammation, aging, injury, and disease.

Use for maintenance

Add a dime-size dollop to food or a treat 2x per day.

Use for crisis

Use dollops more often, up to 8x per day.
